

BREEAM INTERNATIONAL NEW CONSTRUCTION ASSESSOR TRAINING

(Course Code: 86115)

The BREEAM International New Construction (NC) 2016 scheme is a performance based assessment method and certification scheme for new buildings. The assessment criteria and process focuses on the design of the building from concept stage right through to a fully constructed building. It requires evidence to support the design and construction decisions and ensures they have been fully implemented. The assessments must be audited by independent BREEAM International NC assessors before certification can be granted.

To become a qualified assessor, you need to complete the online learning, attend a 2.5-day course, pass the examination and take out a BREEAM International NC licence. To become licensed, assessors are required to hold professional indemnity insurance.

- Online learning (~30 hours)
 - An Introduction to BREEAM (2016 scheme)
 - The BREEAM International and Bespoke processes, reporting and evidence requirements
 - Technical modules – management, health & wellbeing, energy, transport, water, materials, waste, land use & ecology and pollution
- Classroom workshop & examination (2.5-day, 18 hours)
 - Brief initial test to ensure you have completed the online self-study modules (Day 1)
 - Review of the BREEAM International processes
 - Focus on a couple of the most complex issues within the scheme
 - Tailoring BREEAM International for different building types (Day 2)
 - Selling BREEAM
 - Relationship between different BREEAM schemes
 - BREEAM International examination (2 hours, in open book multiple choice format)
 - Day 3 (half day)
 - Question and Answer Session
 - BREEAM General understanding examination (1.5 hours, in open book multiple choice format)

- Information provided will be kept strictly confidential and will not be sold, reused, rented, loaned, or otherwise disclosed to third party.

About Business Environment Council Limited 商界環保協會有限公司

Business Environment Council Limited ("BEC") is an independent, charitable membership organisation, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information in BEC, please visit www.bec.org.hk.

About BEC Institute of Environmental Education

BEC Institute of Environmental Education ("BEC IEE"), a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes. For further enquiries or assistance, please contact BEC IEE at beciee@bec.org.hk.

About BRE Academy

BRE Academy is the leading international provider of blended learning training and education programmes for professionals and employers. Developed by BRE and industry experts, its content rich, high quality courses, both online and classroom, along with learning materials, are shared with a vast audience from students to professionals who work within the Built Environment. It is the lifelong learning extension of BRE, a world leading multi-disciplinary building science based company, whose mission is to improve the built environment through research and knowledge generation. bBRE Academy's aim is to help organisations meet their business objectives, support professionals in their careers, and further develop the next generation of skilled operatives in the industry. For more information in BRE Academy, please visit <https://bre.ac/about/>.

About Hong Kong Centre for Carbon Innovation

Hong Kong Centre for Carbon Innovation ("HKCCI") is led by the Edinburgh Centre for Carbon Innovation ("ECCI") and is part of the University of Edinburgh ("UoE"). Our Partners include Edinburgh Napier University, BRE Scotland, and the Scottish Government (through Scottish Development International). HKCCI supports the exchange of know-how, enterprises and people with expertise in low-carbon solutions, clean energy, and UoE's world-famous biomedical sciences between Scotland and the Hong Kong and Chinese markets. For more information in HKCCI, please visit <http://www.hkcci.com.hk/>.
