

DATE 6-8 December 2016
VENUE Hong Kong Baptist University

ASIA-PACIFIC Conference on Biotechnology for Waste Conversion 2016

**REGISTER
NOW**

to learn the advanced
trend on biotechnology
for waste treatment

CPD certificates for
full day participants and
special discount for
local professionals

Bio-nano technology and applications in waste
Biotechnology and molecular-engineering for organic
resource management

Integrated biotechnologies for novel products

Organic Waste sources and Recycling Trends in Asia-Pacific Region

Keynote Speakers

Prof. Jonathan W.C. Wong, Hong Kong
Topic: Innovative Composting Technology

Prof. Ashok Pandey, India
Topic: Bioproducts from Industrial Residues

Prof. Rajeshwar D. Tyagi, Canada
Topic: Turn biological resources into bioproducts

Prof. William Clarke, Australia
Topic: Advances in anaerobic digestion

Prof. Rao Y. Surampalli, USA
Topic: Bioreactor landfills for sustainable management of solid waste

Prof. D.J. Lee, Taiwan
Topic: Research trends in microbial fuel cells

Prof. Agamthu Pariatamby, Malaysia
Topic: Organic resource recycling in Asia-Pacific Countries

Prof. Klaus Fricke, Germany
Topic: Waste biorefining and process commercialization

Main Organizer

Platinum Sponsor
