Programme Highlights:

Zhuhai Gree Electric Appliances Co., Ltd. (珠海格力电器股份有限公司) was established in 1991 and listed on the Shenzhen Stock Exchange in November 1996. In the early days of its establishment, the company mainly relied on the assembly and production of household air conditioners. It has now developed into a diversified, technologically-oriented global industrial manufacturing group covering household consumer goods and industrial equipment. Its products are exported to more than 190 countries and regions. The company has 77 production bases and 16 research institutes. It has extended from professional air-conditioning production to diversified high-end technology industries. At present, Gree Intelligent Equipment not only provides advanced equipment for its own automation transformation, but also provides services for many industries such as home appliances, automobiles, building materials, sanitary ware, etc. In this visit, the manufacturer will present the latest A/C products and the green features on how they contribute to low carbon environment. A guided tour will show the production line and manufacturing facilities for air conditioning chillers, air conditioners and home appliances.

Medium of Language:

Cantonese & Putonghua
