* **Early Bird Discount** (5%) – on or before 24 Nov 2017.

Group Discount (5%) – for group of 2 or more from the same organisation.

* **Additional Discount for BEC / Supporting Organisation Member**
Council Member (10%); Corporate or General or Affiliate or Supporting Organisation Member (5%).

Since the ratification of the Paris Agreement in November 2016, countries and businesses across the globe have agreed on the mission of reducing carbon emissions with the goal of transforming to a net zero carbon future in the second half of the century. China has confirmed its commitment through its Nationally Determined Contributions and 13th Five-Year Plan. Hong Kong did the same in issuing its Climate Action Plan 2030+ in January 2017, committing to reduce the carbon intensity of the economy by 65-70% by 2030, amounting to reductions in absolute emissions of 26-36%.

Challenged by disruptive changes, executives must acquire the expertise to manage the impacts while sustaining competitive advantage. BEC, in particular BEC Climate Change Business Forum, aims to help the members and other businesses to build capacity to reduce emissions and to manage the impacts. Join this highly interactive half day executive training, organised by BEC, HKCCI and University of Edinburgh ("UoE"), you will know the current situation in low carbon economy and carbon finance, reveal the risks and opportunities, and develop organisational strategies without jeopardising financial stability through real world examples.

Speaker - Professor Andy Kerr

Professor of Low Carbon and Climate Innovation & Executive Director of Edinburgh Centre for Carbon Innovation (ECCI)

Andy is a leading figure in Scotland on climate mitigation and adaptation. He is Executive Director of ECCI, an international low carbon innovation centre based at UoE with hubs in Edinburgh and HK: it supports innovative start-up enterprises and brings together business, cities and local regions to develop and scale climate and clean energy solutions.

He is also co-Director of the Scottish Centre of Expertise on Climate Change, an initiative established by the Scottish Government to support delivery of their world-leading climate and clean energy targets. His public policy work has focused on developing effective policy frameworks to reduce dependence on fossil fuels and build climate resilience.

Topics to be covered

- Stimulating the low carbon economy in China: experiences from UK and EU
- The role of domestic emissions trading scheme in China
- Financing and scaling emerging low carbon energy technologies
- Delivering regional low carbon action plans

Certificate

A Certificate of Attendance endorsed by BEC, HKCCI and UoE will be awarded to participants after the course.

Medium of Instruction

English.

Venue

BEC Headquarters, 77 Tat Chee Avenue, Kowloon Tong, Hong Kong.

Register Now

Click here to download the [Application Form](#) and submit the completed form to us on or before 1 Dec 2017. Late enrolment will be accommodated subject to seat availability.

If you do not wish to receive any further promotional materials from BEC, please send an email to us at unsubscribe@bec.org.hk; and
- Information provided will be kept strictly confidential and will not be sold, reused, rented, loaned, or otherwise disclosed to third party.

About Business Environment Council Limited 商界環保協會有限公司

Business Environment Council Limited ("BEC") is an independent, charitable membership organisation, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information in BEC, please visit www.bec.org.hk.

About BEC Institute of Environmental Education

BEC Institute of Environmental Education ("BEC IEE"), a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes. For further enquiries or assistance, please contact BEC IEE at beciee@bec.org.hk.

About Hong Kong Centre for Carbon Innovation ("HKCCI")

HKCCI is led by the Edinburgh Centre for Carbon Innovation ("ECCI") and is part of the University of Edinburgh ("UoE"). Our Partners include Edinburgh Napier University, BRE Scotland, and the Scottish Government (through Scottish Development International). HKCCI supports the exchange of know-how, enterprises and people with expertise in low-carbon solutions, clean energy, and UoE's world-famous biomedical sciences between Scotland and the Hong Kong and Chinese markets. For more information in HKCCI, please visit <http://www.hkcci.com.hk/>.

About University of Edinburgh ("UoE")

From Nobel laureates and Olympic champions to space explorers and prime ministers, the University of Edinburgh has been influencing history since it opened the gates to its first students in 1583. The University is the sixth oldest university in the English-speaking world and one of Scotland's ancient universities. Following the Scottish Enlightenment of the 18th century, the University was positioned at the forefront of academia and critical thinking. Due to the determination and perseverance of a group of Edinburgh intellectuals, established facts about the world were being boldly and consistently challenged. Today, UoE ranked 19th in the world according to the QS Rankings, with its Institute of Informatics ranking the first in UK. The University is also the fourth most popular university in the UK by volume of applicants. For more information in UoE, please visit <http://www.ed.ac.uk/>.
