

CHANGING LANDSCAPE

IFMA's signature conferences are proven successes that are highly regarded in the region. The Hong Kong Chapter of the International Facility Management Association (IFMA) is pleased to announce the IFMA's Integrate 2019 Facility Management Conference, which will be co-located with HOFEX, Asia's leading food and hospitality tradeshow.

At this year's IFMA Integrate Conference, we will explore the challenges and opportunities that impact the FM sector today — from the roles that technology and data play in driving efficiency and sustainability, to the policies and business trends that are reforming our industry and the ways our buildings are used. Industry experts, policy makers, landlords, users, and service providers will come together to share their views in interactive panel discussions.

Date : May 7, 2019 (Tue)
Venue : Hong Kong Convention and Exhibition Centre
